

SELF NOMINATION FORM

Senior Center Innovation Project

California senior centers have often led the way in innovative programming. In an effort to tell the story of how senior and community centers are using innovations to successfully respond to today's environment, the California Commission on Aging is preparing a report to highlight successful innovations underway in our state. The document will be distributed at the **Second Statewide Senior Center Stakeholder Forum in Los Angeles, November 14th**. If your center has an innovation you are willing to share information about for potential inclusion in the document, please complete this nomination form and submit to us no later than **August 30th**. Upon receipt of the nomination form; we will contact you to set up an interview. Resources and timing may restrict CCoA from including all nominated centers in the final document.
